SHUBHAM MOHITE

MERN Stack & React Native Developer

Jalna, Maharashtra 431203 | Open to relocate to Gurugram / Pune | +91-9529963400 | shubhammohite574@gmail.com
github.com/shubhammohite09 | linkedin.com/in/shubhammohite09

CAREER OBJECTIVE

Final-year Computer Science undergraduate (graduating 2027) and current MERN Stack intern with hands-on experience in JavaScript (ES6+), React, Node.js, Express.js, MongoDB and SQL databases. Built full-stack projects including a payroll management system backed by PostgreSQL. Built a cross-platform mobile app with React Native, extending my React and JavaScript skills to mobile development. Seeking an SDE / mobile development internship where I can contribute to production features and grow into a full-time software engineer.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js
Mobile Development: React Native
Backend & Server-Side: Node.js, Express.js, PHP, Supabase
Databases: MongoDB, MySQL, PostgreSQL
Programming Languages: Java, C++, Python
Version Control & Tools: Git, GitHub, Visual Studio Code
Currently Learning: REST API design, AI integration with the MERN stack, Python for AI/Machine Learning

INTERNSHIP EXPERIENCE

MERN Stack Intern | Comtranse Technology Aug 2026 – Present

- Working on live web development tasks across the MERN stack (MongoDB, Express.js, React, Node.js).
- Building and testing features with the development team, following team coding standards and Git-based workflows.
- Contributing to both frontend (React) and backend (Node/Express) work and delivering tasks within team timelines.

PROJECTS

My Money Tracker | Mobile App
Technologies: React Native, Expo, JavaScript, AsyncStorage

- Built a cross-platform React Native (Expo) app to track money given to people, with a dashboard, searchable people list, transaction records and per-person reports.
- Implemented mobile-number login with salted SHA-256 password hashing (expo-crypto) and persistent sessions, with phone and password validation.
- Saved transactions and settings on-device with AsyncStorage; users can add entries, mark them as returned, or delete them.
- Structured the app into reusable components and screens (Home, People, Records, Reports, Settings) with custom bottom-tab navigation.

FirstFlight Travels | Travel Booking Website
Technologies: HTML, CSS, PHP, MySQL | **GitHub:** github.com/shubhammohite09/firstflight

- Built a multi-page travel booking website covering home, locations, packages, about and contact pages.
- Implemented user registration and trip booking with server-side validation in PHP and persistent storage in MySQL.
- Designed a responsive, mobile-friendly UI with custom CSS, Google Fonts and Boxicons.

Labour Attendance & Wages Management System
Technologies: HTML, CSS, JavaScript, Supabase (PostgreSQL) | **GitHub:** github.com/shubhammohite09/LabourManagement-System

- Built an end-to-end attendance and payroll system for labour workforces covering worker records, day and night-shift attendance, and supervisor management.
- Automated weekly and monthly wage calculation from attendance and wage rates, with payment tracking and a payment ledger.
- Integrated Supabase (PostgreSQL) as the backend with a LocalStorage fallback, and added CSV export for attendance reports.

EDUCATION

B.Tech, Computer Science Engineering (Pursuing) | DY Patil School of Engineering & Technology, Talsande, Kolhapur Expected 2027

CGPA: 6.17

Higher Secondary Certificate (H.S.C), PCMB | S.M.T Indira Gandhi High School, Ramnagar, Jalna | Maharashtra State Board | Aggregate: 65.17%

Secondary School Certificate (S.S.C) | Netradeep Vidyalay, Motigavhan, Jalna | Maharashtra State Board | Aggregate: 76.20%

CERTIFICATIONS

- Python (IBM)
- SQL and Relational Databases (IBM)
- DevOps Fundamentals (IBM & NSDC)
- Frontend Web Development (Simplilearn / SkillUp)
